

INDUSTRY-SPONSORED SYMPOSIUM AT
**IASLC 2021 WORLD CONFERENCE
ON LUNG CANCER**

INNOVATIONS IN LUNG CANCER DETECTION and Management of Non-Small Cell Lung Cancer (NSCLC) With Targeted Therapy

FRIDAY, SEPTEMBER 10, 2021 | 5:45 AM – 6:45 AM MT

Please join our expert panel for a discussion on recent advances in the detection, diagnosis, and management of advanced epidermal growth factor receptor (EGFR)-mutated NSCLC. These advances aim to lead to the creation of new methods for addressing currently unmet needs, allowing for the exploration of earlier intervention as well as the development of future directions of NSCLC diagnosis and treatment.

AGENDA

- **Welcome and Introduction**
Joshua Sabari, MD
- **EGFR-mutated NSCLC – Progress, Recent Developments, and Unmet Needs**
Ticiana Leal, MD
- **Advances in Early Diagnosis, Detection, and Intervention of Lung Cancer**
Christopher J. Manley, MD
- **Q&A**
All faculty

FACULTY

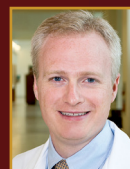

Joshua Sabari, MD

Assistant Professor
Department of Medicine,
Medical Oncology
New York University School
of Medicine
New York, NY

Ticiana Leal, MD

Associate Professor,
Director of the Medical Thoracic
Oncology Program
Emory University School of Medicine
Atlanta, GA

Christopher J. Manley, MD

Director, Interventional Pulmonology
Fox Chase Cancer Center
Philadelphia, PA
