

IASLC 2021 World Conference on Lung Cancer | Worldwide Virtual Event (WCLC 2021)  
Industry Sponsored Symposium

# Targeting NSCLC: Current and Emerging ADC Therapies

Monday, September 13, 2021 | 16:15-17:15 MT US

## Objectives

- To provide updates on the current ADC treatment landscape for advanced NSCLC
- To assess current methods for molecular profiling of ADC targets and their clinical implications
- To review data for current and emerging ADCs in NSCLC and evaluate ADC therapies as potential treatment options in patients with NSCLC

### Luis Paz-Ares, MD, PhD

Hospital Universitario 12  
De Octubre  
Madrid, Spain

### Marina Garassino, MBBS

The University of Chicago  
Department of Medicine  
Chicago, Illinois USA

### Corey Langer, MD

University of Pennsylvania  
Philadelphia, PA USA

### Keunchil Park, MD, PhD

Sungkyunkwan University  
School of Medicine  
Seoul, South Korea

## Agenda:

16:15-16:30 MT	Disease Landscape Overview	Luis Paz-Ares, MD, PhD
16:30-16:40 MT	Pathobiology and Molecular Profile of ADC Targets in NSCLC	Corey Langer, MD
16:40-16:50 MT	ADCs Targeting the HER Family and Clinical Data in NSCLC	Keunchil Park, MD, PhD
16:50-17:00 MT	Emerging ADC Targets and Clinical Data in NSCLC	Marina Garassino, MBBS
17:00-17:15 MT	Live Question and Answer Session	Faculty Panel
